

# **GAI –SudokuToolkit**

## **Release Notes**

### **Version 0.4.0 (08/11/2010):**

- Reference C++ CPU path of a recursive backtracking search, in the context of a Sudoku solver. Not highly optimized.
- Initial package.
- Dependencies:
  - o Visual Studio SP1 2008 C runtime libraries (use Visual C++ Redistributable Package).
  - o CUDA 3.1 toolkit and a matching display driver.
  - o DirectX Redistributable, End-User Runtime (June 2010).

### **Version 0.6.0 (10/12/2010):**

- Implemented CUDA port of Sudoku solver.
- Technology Preview release.
- Dependencies:
  - o Visual Studio 2010 and Visual Studio SP1 2008 C runtime libraries (use Visual C++ Redistributable Package).
  - o CUDA 3.1 toolkit and a matching display driver.
  - o DirectX Redistributable, End-User Runtime (June 2010).

### **Version 0.8.0 (06/06/2011):**

- Mostly fixes for improved stability.
- Dependencies:
  - o Visual Studio 2010 SP1 (use Visual C++ Redistributable Package).
  - o Production CUDA 4.0 toolkit and a matching display driver.
  - o DirectX Redistributable, End-User Runtime (June 2010).
