# GETTING THE MOST FROM GTC AND THE NVIDIA DEVELOPER PROGRAM

Greg Estes, VP Developer Programs, NVIDIA

# WELCOME TO GTC!

"From autonomous driving, … robots, and drones to the move to general AI, GTC covers most of what will redefine our world this century."

- Rob Enderle, TGDaily

While AI gets a lot of attention at GTC, NVIDIA GPUs continue to utterly transform HPC. If scientists want to see what's next for accelerating traditional HPC workloads, it's here.

- Karl Freund, Moor Insights

"If you are interested in AI and ML, GTC is the place to be whether you are a developer, a data scientist or a business person"

- Patrick Moorhead, Forbes

"GTC is like the Tomorrowland of computer graphics, with never-before-seen new technology that affects every industry"

- Jon Peddie, JPR
